Women in Mathematics Day

Università degli Studi di Torino, Dipartimento di Matematica, Sala S

Program

09:00–09:10	Susanna Terracini Anna Maria Fino	Institutional greetings
-------------	--------------------------------------	-------------------------

First session

09:10–10:30	Gessica Alecci Giulia Ruffini Daniela Volpatto Lucrezia Bottegoni	"On algebraic structures of linear recurrent sequences." "From data to processes, passing through graphs." "Mathematical contamination in biomedical research." "Monads, comonads and separable functors."
-------------	--	---

10:30–10:40	Coffee break
-------------	--------------

Second session

10:40–12:00	Marta Saccoletto Beatrice Brienza Margherita Piroi Elisa Paparelli	"Argumentative processes developed in a teaching-learning sequence on probability theory." "Generalized Kähler manifolds via mapping tori." "An experimental teaching and learning sequence for a linear algebra course for engineering". "Modelling coevolutionary dynamics in heterogeneous SI epidemiological systems across scales."
-------------	---	---

12:00–12:10	Coffee break
-------------	--------------

Third session

12:10–13:30	Alice Battiston Francesca Acotto Marta Bianciotto Marta Baratto	"Modelling urban systems: data-driven approaches towards sustainable cities". "Mathematical models in ecology: prey herd response to individualistic predator attacks." "Search for anisotropies in the arrival directions of UHECRs with the Pierre Auger Observatory." "Agent-based models in socio-economic problems."
-------------	--	--

13:30–14:45	Lunch break
-------------	-------------

Afternoon session

14:45–15:15	Norma De Piccoli CIRSDe UniTo	<i>"Le insidie degli stereotipi di genere. Come è possibile modificarli?"</i>
15:15–15:45	Giulia Ferrari UniTo	<i>"Per una matematica femminista."</i>
15:45–16:15	Francesca Tampone UniMib & FRidA UniTo	<i>"Femminista si diventa! La morning routine per cambiare il mondo."</i>
16:15–16:45	Greta Temporin PoliTo	<i>"Il mondo accademico STEM come una «gendered organization». Il «chilly climate» come una pratica lavorativa di genere per mantenere il mondo accademico STEM segregato."</i>
16:45–17:00		Coffee break
17:00–18:00		Round table
